Professional Summary

I am a skilled and experienced **Web Developer** with a strong background in building scalable, data-driven web applications. I hold a Bachelor's degree in Computer Science from *Università degli Studi dell'Insubria di Varese*, where I graduated with a score of 96/110.

Over the years, I have gained extensive experience in **full-cycle software development**, from requirement analysis and system architecture design to front-end and back-end implementation. My technical expertise includes **HTML, CSS, PHP, JavaScript, MySQL, jQuery, Ruby, and Python**, as well as frameworks and environments such as **MVC**, **Drupal**, and **Joomla**.

In addition to team roles, I have successfully worked as a **freelance developer**, independently managing client relations, drafting project budgets, and delivering complete software solutions.

I am highly motivated to bring my skills and experience to a dynamic and innovative company where I can continue to grow professionally and contribute to impactful digital projects.
